

Key Stage 2 Class News Summer 2024

Things to note for your class

Teachers will continue to inform you if they need any specific items for a student's individual timetables.

Please could your young person apply suncream before they leave home, and bring in a named bottle of suncream so we can re-apply this during the day, as necessary.

A named hat, a named water bottle and a raincoat just in case would also be good!

Thank you!

Topic this Term

In KS2 this term, our theme is 'Where does water come from?'

We are learning about the water cycle in Geography through practical sessions - lots of the children really enjoyed making their own miniature water cycles!

In English, we are exploring myths and legends. Our core text is called *The Water Dragon* by Li Jian. Towards the end of this half term, we will be creating our own myths and legends!

In Maths, we are learning about money through formal learning sessions and also in our role play shops.

Some classes are going off site each week for Science to study our local habitats and use equipment to develop observational skills and record data. Parents and carers can see photos and/or videos of this on Earwig.
